DETAILED ACTION

Election/Restrictions

1. This application is in condition for allowance except for the presence of claims 17-29 to an invention non-elected without traverse. Accordingly, claims 17-29 have been cancelled.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 12/22/03 was filed same with the mailing date of the present application. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Specification

3. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

EXAMINER'S AMENDMENT

4. The application has been amended as follows:

In the Amended Abstract filed on 12/22/03, first line, change "**comprises**" to – **having** –

Cancel claims 17-29.

Allowable Subject Matter

5. Claims 1-16 are allowed.

Art Unit: 2824

6. The following is an examiner's statement of reasons for allowance:

The prior art of record (Ledford et al., Oikawa et al., Perner et al., Tanaka, Ooishi, and Smith et al.), fail to disclose a memory device comprising, in combination with other cited limitations, the first and second device controller, wherein the first device controller is configured to communicate with the device interface to pass first data between the first plurality of arrays and the host interface, and wherein the second device controller is configured to communicate with the device interface to pass second data between the second plurality of arrays and the host interface as recited in claim 1.

Claims 2-16 are therefore allowed because of their dependency on claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2824
